

Email F&D (Forwarder & Downloader) User Guide

Disclaimer

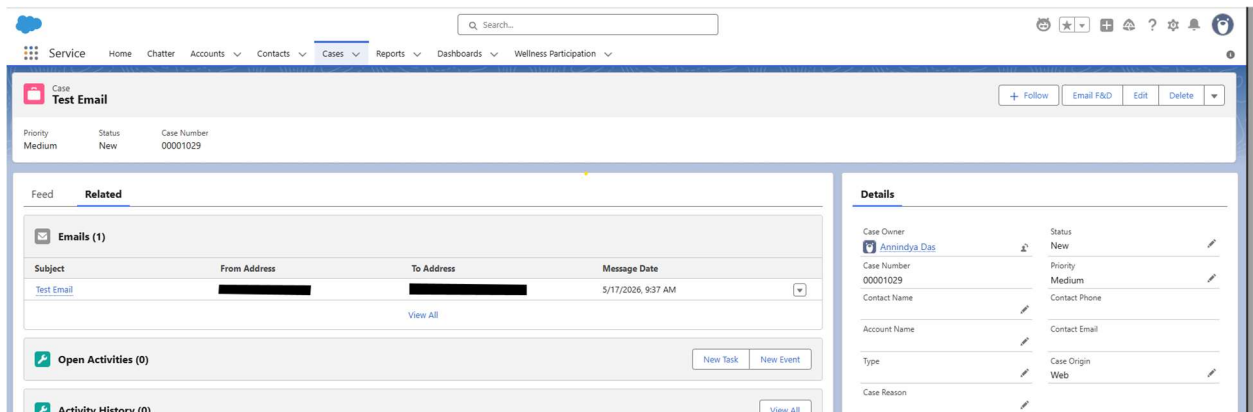

Once [post install](#) steps have been completed. Please refer to this guide to understand the use. We have set it up for Case object and Email Message as object action.

Use Case

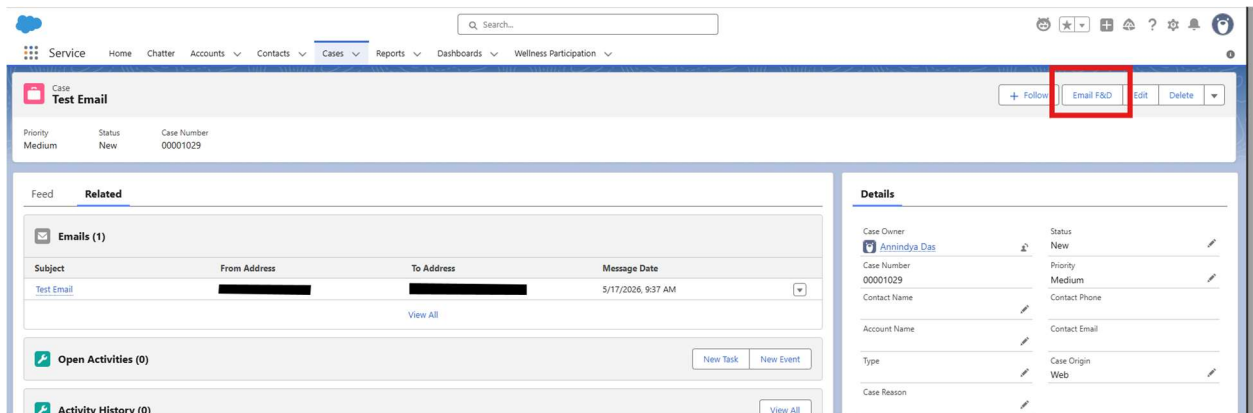

Step 1: Navigate to Case tab.

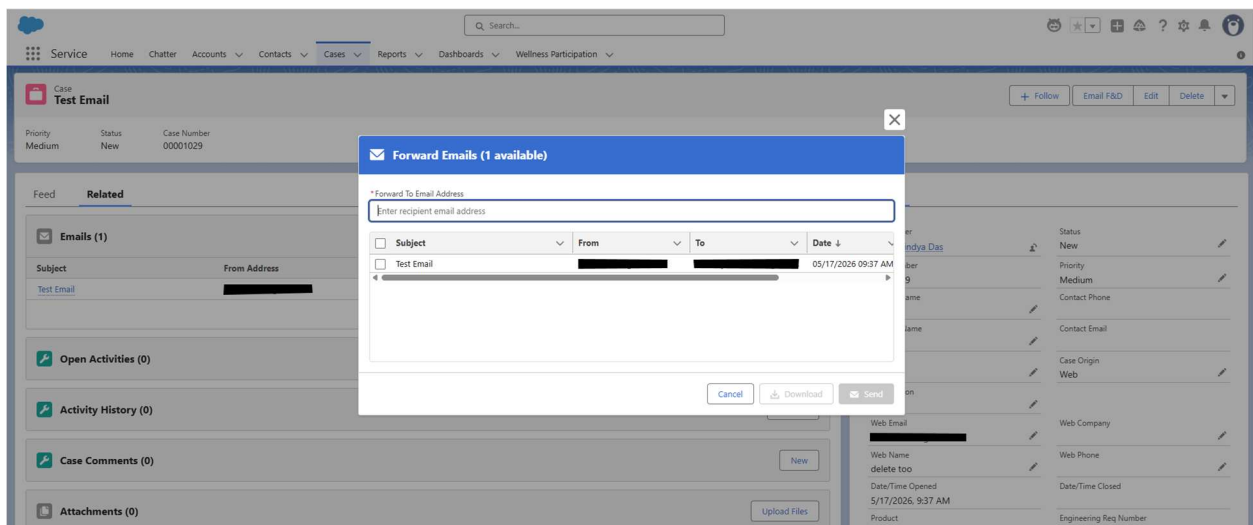

Step 2: Select a case with Email Messages present.

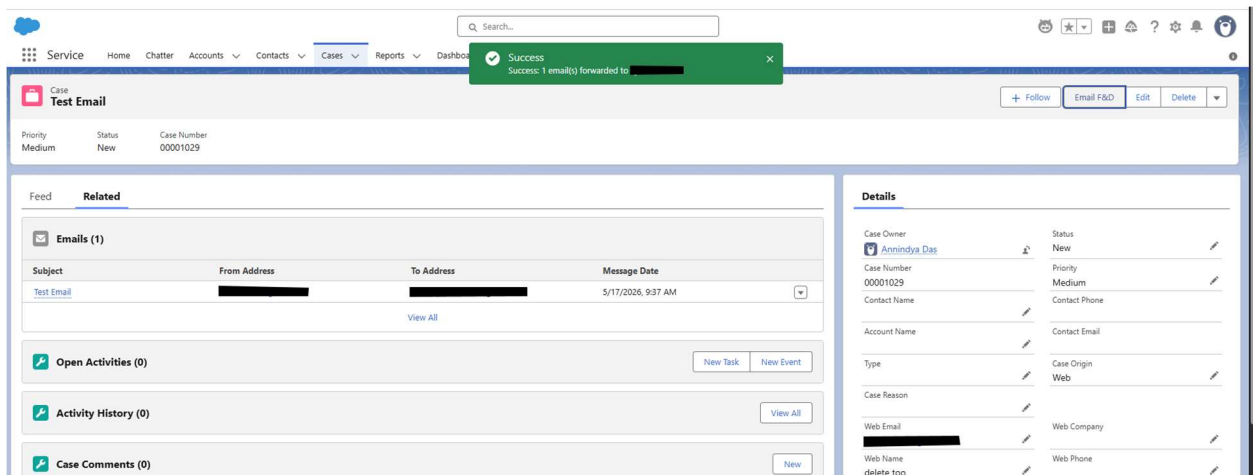

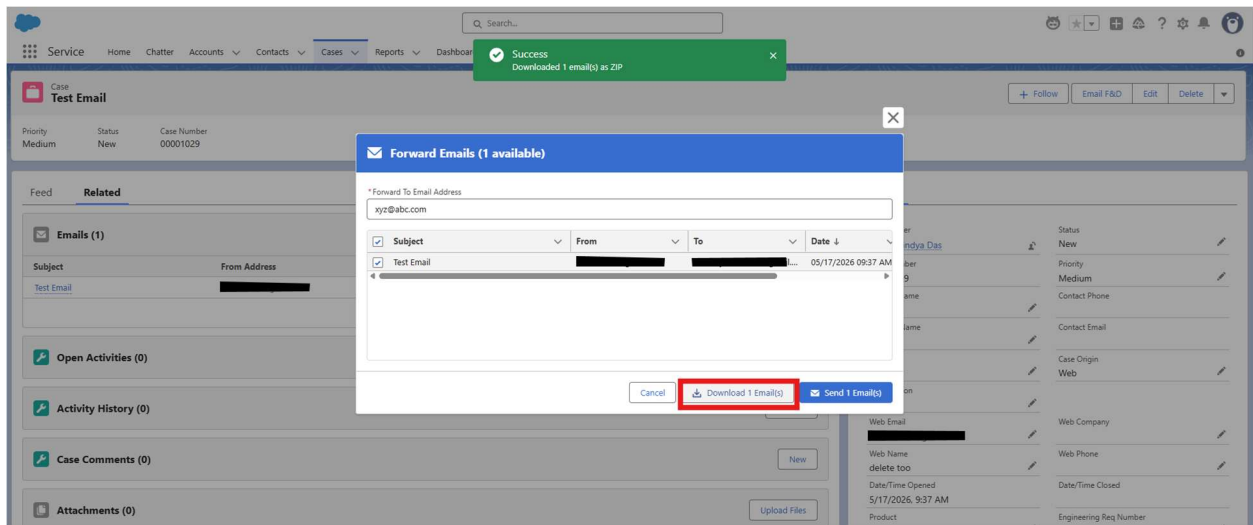

Step 3: Click on Email F&D action

Step 4: You will see a pop-up showing a list of all the emails present on this Case. From here you may choose to download the email by selecting specific ones or selecting all. Or you can provide a forwarding email address to forward selected mails.

Step 5: Alternatively, you can also navigate to the specific email to click on Download action. This will let you download the email from Email Messages.
